ASKO

SCANDINAVIAN LAUNDRY CARE 2.0

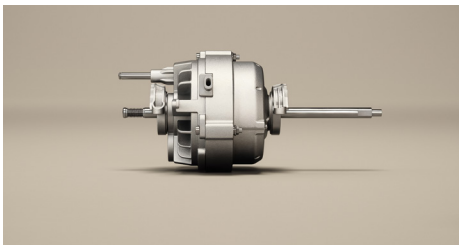
T3HW | TUMBLE DRYER

Bundle Guard™

To eliminate bundling, ASKO tumble dryers feature Bundle Guard™ that detects and resolves bundles of bedsheets and clothing. Makes drying both convenient and more effective.

Tested for 20 years of use

Our ASKO tumble dryers are built to last. Every ASKO tumble dryer is tested for 20 years of use —that's up to 10,000 hours of operation.



BLDC motor

BLDC motors are extra durable, quieter than ordinary motors and more energy efficient. And unlike standard motors, there are no brushes that can be damaged and need replacing.

Multi Filter System

ASKO tumble dryers provide unbeatable lint protection with their Multi Filter System. Featuring the ergonomic One Motion™ mesh filter in the door and a dual lower lint filter, they guarantee consistent drying performance for years.

Butterfly Drying™

With Butterfly Drying™, the paddles in the drum gently tumble the clothes in a figure 8 to create space between the garments, ensuring an even drying experience.

Soft Drum™

Soft Drum™ is a solution developed to enhance air flow around the load, thereby increasing the drying effect. The large paddles distribute the load evenly in the drum which ensures a high drying effectiveness.

T3HW.U

3-series / Heat pump tumble dryer / 19.8 lbs
White
Bundle Guard™ / Tested for 20 years of use / Fast drying

Bundle Guard™: Detects and resolves bundles **Butterfly Drying**™: Uniform and effective drying **Heat pump system:** Low energy consumption **BLDC motor:** Low noise, low energy and long life-time **Multi-filter system**: Effective lint protection for the heat pump system **One Motion Filter**™: Easy to use lint filter , **WIFI connection** with associated ConnectLife app

20 YEARS TESTED

DESIGNED IN SWEDEN.
PRODUCED IN EUROPE.

ENERGY STAR

Available accessory (ordered separately)

Basket for drying shoes and other items that should not be tumble dried.

Laundry perfection and fabric care
- Bundle Guard™: Detects and resolves clothes bundles.
- Butterfly drying™: Move the fabrics in a figure eight for effective and even drying.
- Soft Drum™: Drum design for gentle and effective drying.
- Delicates program: Careful drying of sensitive garments at lower temperatures.
- Dryer link: The dryer propose an appropriate drying program to the program carried out in the washer.
- Sensi Basket™: The basket is available as accessory and is perfect when drying shoes for instance.

Scandinavian design and sustainability
- Quality test: 10,000 h, 225 cycles per year (20 years of domestic use).
- Low energy consumption: Highly efficient heat pump enables low energy consumption.
- ECO feedback: In the ConnectLife app you can check energy, water and detergent consumptions.
- R290 heat pump refrigerant: Environmentally friendly and low global warming impact.

Health, wellbeing and convenience
- Quick Pro program: Dry up to 8.8 lbs in just 40 min. (8.8 lbs synthetic with 30% moisture)
- Drum light for easier loading and unloading
- Multi-filter system: Protects the heat pump from lint and dust for perfect drying results over time.
- 4" FFSTN display and rotary knob with Line Concept™, memory function and 27 languages.
- Connectivity with associated ConnectLife app: Remote monitoring, control and washing guide.
- Water tank is possible to connect to drain: No need to empty the water tank.

Programs
- 12 programs: ECO cotton, Storage dry cotton, Iron dry cotton, Synthetic, Delicates, Wool, Mixed laundry, Beddings/Towels, Down/Bulky items, Airing, Time Program, Quick Pro Cotton

Modes
- 2 modes: Standard, Delicate

Options
- 5 options: Dry level, Delayed start, Anti-crease, Child lock, Load level

Safety
- Overheating protection / Overfill protection in water tank / Child safe door

Technical data
- Electrical connection: 0,7 kW / 208–240V / 60 Hz / 15 A
- Drum volume: 4.2 Cubic ft / Loading capacity: 19.8 lbs
- Noise level (dB): 61
- Refrigerant: R290 (GWP index: 3,3)
- ADA compliant when installed on top of an ASKO pedestal
